NAR Puppies brand Health Guarantee information. We currently offer a life-time health guarantee on genetic health and trait health diseases and problems that we have tested for. For the record, we check for all of them that current science and technology allow our team to check for here at NAR Puppies. If we do not cover, or guarantee a specific test or possible inherited trait or DNA in question on a specific puppy in question, then the contract will normally state that statement on the puppies contract in question, that we have the buyer sign for his/her puppy. Lifetime health guarantee means, in the normal canine life of the pedigree puppy in question, NAR Puppies brand will cover the puppy as stated with the terms and explanation above under the section labeled "Health Guarantee". This guarantee covers of hundreds of health and trait inherited disorders that can be present in canine's, and the pedigree dog breed in question. NAR Puppies strives to have blood-lines with the healthiest health and trait variables available for our breeding program and puppies. In the event the lifetime health guarantee is claimed, a new puppy adoption will be made available to the family, the family may have to pay transportation cost, however NAR Puppies will cover the puppy cost. This is all pending an autopsy, unless we otherwise state no autopsy is needed, we will let the family in question know depending on the situation.

question at hand, then the case, decision, ticket, sentence, fine, judgement, decision, regulation that included NAR Puppies, is considered void and reversed.

Court (H) A court case in 2024, with a title that included "State Vs Cody N Smith", had illegal court rulings by Independence county judge, against Cody N Smith. For people that may not know, Cody N Smith is "NAR Puppies", and is a member of the NAR Puppies board as well. The court told Cody N Smith in 2024, that it was to not have any animals on it's land anymore, specifically on one of it's properties. This property in question the Independence County judge, and state representative on the floor, both talked and conversed, and told Cody N Smith that he is to have no more animals, or animal breeding on on this property in question. This property was privately owned by Cody N Smith, and was a home, land, and habitat, a habitat that was custom built, and included many buildings and play areas for dogs and puppies, all privately owned by Cody N Smith. This was the end of the court case in question in 2024, and he was told to move his animals, his livestock, where the animals had been for over five years, animals that were on his private land, animals Cody N Smith owned, as well as real-estate that was privately owned by Cody N Smith. This decision by the judge, court, city, county, state representative was illegal in many ways, and violated the rights of NAR Puppies, and more specifically Cody N Smith and his dogs and puppies he breeds. The decision by the court, violated the constitutional law that people cannot be regulated on their private land. The law goes even farther to say people cannot lose their private land or real-estate, also known as a sanction, without getting fair compensation under constitutional law. What does this mean? To further explain, the judge and court not only made illegal un-lawful ruling, violating the rights of Cody N Smith, and his company and breeding program called NAR Puppies, the court also took actions that constituted and qualified as a "sanction" of real-estate or private property. However no ruling was made to "sanction" Cody N Smith's private assets, but technically they cannot "regulate him on private land", without sanctioning him, and if they sanction him, they

have to pay him fair compensation for his assets or real-estate. The Independence county court, judge, city, and state representative, set into motion a set of events, that kept being more and more illegal, and more and more counts of breaking laws, and more and more counts of violating Cody N Smith's rights, and NAR Puppies rights. To make the situation even worse, Cody N Smith plead not guilty for the second court date for the case "State vs Cody N Smith" when the judge called him the stand this day in 2024. The judge got mad and raised his voice, threw his hand out and started waving it around, and told Cody N Smith to sit down at the jury desk. About an hour went by this day in question, and an officer came in and got Cody N Smith, and locked him up at Independence county jail, took his items, fingerprinted him, and took him behind bars in the county jail, for having animals on his private property, animals that were his private property. Just because a law, or ordinance, exist, does not mean that law or ruling in question is legal, and does not mean that law enforcement, or a court should enforce it, at-least not in all situations, the situation at hand has to be considered, the variables at play, and a highly educated decision has to be made, not a corrupt, illegal, decision or ruling or law enforcement officers.

### Additional Legal

Legal (A) If any individual, including, but not limited to, entity, group, political, law enforcement, alias would like to take NAR Puppies to court, fined, or otherwise requires compensation from an event in question by NAR Puppies, they must first ask NAR Puppies. A written statement needs to be presented to NAR Puppies of the situation in question of concern that is being debated, if NAR Puppies accepts for the situation in question, then the opposing party agrees to pay the full amount of the legal fees, and any associated cost for NAR Puppies legal team to operate and defend NAR Puppies, for the full-length of the court case, trial in question.

Legal (B) If NAR Puppies is called to court for any reason, or ticketed, fined, or otherwise requires compensation from an event in question from NAR Puppies, in connection, and in addition to, Legal (A), NAR Puppies is required to have their law firm and legal panel paid in full, and this law firm in question, will be one of the best law firms capable of defending NAR Puppies. The full payment from the opposing party, will pay the legal cost and associated fees to NAR Puppies, NAR Puppies will manage the money and pay their legal team for the court trial in question. This law firm will be hand picked by NAR Puppies. This law firm will protect the assets, board, and NAR Puppies in its entirety. As stated in Legal (A), the full legal cost, and any associated cost, of NAR Puppies, will be paid for in full by the opposing party that is taking NAR Puppies to court.

Legal (C) In the event a company owner, individual, tries to sly their way into ownership of a company, by means of false documentation of transactions, money, payroll on tax books, sales receipts, invoices, checks, or otherwise having documents of a company owner on payroll, or purchase receipts from the company other, and claiming these records are for, or that they qualify for, ownership, shares, in part, or in full of NAR Puppies, or any other company is not allowed. for an example, if a board member is being paid by another individual, entity, political, or otherwise a company owner normally that has a employee payroll for services or for their staff, and this company has another company owner, or share holder on their payroll, it not does not constitute, or qualify the individual in question that has the other company owner, or share holder on their payroll for shares, ownership, board positions, or otherwise in part, or in full, NAR Puppies. For example two, if a company owner, individual in question sells a car for a set amount, let's say \$35,000, to another individual in a private sale. Then 8 months later, the person that bought the vehicle for the \$35,000, knows the individual they bought the vehicle from has wealth, or a company, and they take the invoice, or situation in question, and claim they bought in part, or in full of the company or wealth the buyer has by using the sale, receipt, transaction, invoice, contract variable, in a way that they did not mean, in a sly, shady, manipulative way. They could say the \$35,000 was for

their company, and show the bank receipt, or transaction receipt, especially if they have a strong, or good, reputation, and they could use situations like everyday transaction, the transaction data and event itself, to take over, or claim companies, or claim real-estate, vehicles, land, or anything you can image, especially if such situation go to court, and they have full case, files, documents and a excellent reputation, they can literally destroy a buyer that might of even gave a good receipt and been professional. Same with payroll, a business, or company owner, individual, can claim that they were paying a persons weekly check, or salary, or a companies day to day bills for years, with their payroll ledger and documents, and show that a business owner, or individual in question has been receiving compensation, and a check from them, and they are the real business owner, and show months or years of payroll from their company, to another business owner that has a side job and works for them, and claim in part, or in full their wealth, items, or in this example their company.

Legal (D) No individual can claim in part, or in full NAR Puppies, Except for The NAR Puppies Board Of Trustees. No individual, including, but not limited to business, entity, political, can, use any contract, law, policy, terms, document, legislative, political, audio, video, picture, creative, signed, means to claim any part of NAR Puppies, except for The NAR Puppies Board Of Trustees.

Legal (E) In the event an individual, tries to use creatives, videos, pictures, writings, audio, documents of a business owners operation, or has their items documented by take taking pictures, videos, audio, or writings or in anyway without the business owners consent to claim ownership, this is not allowed and is sly, manipulative, and dishonest. For example, their are company owners that have schemes, especially to other business owners, or people of wealth that they have in their personal or business network for networking with people, and they may do things like show up frequently to the other business owners real-estate, or business, and take daily and weekly pictures, by driving by and snapping a picture from their vehicle window of the other business and individuals there, or if they know them well enough, as they walk through their

business ever so often, they may take pictures of their rooms, outside, expensive items in the business, vehicles. A lot of times this is done with their phone camera, and can look like they are not even taking pictures. This is a little far, but if the individual or business owner running the scheme, is close to the business owner or individual that has the wealth items they want, it is easy for them to build up a timeline, and history of creative proof with pictures, audio, writings, journal entries, even some of their customers might know them if they stop by weekly. This is not allowed or legal, at NAR Puppies and will not happen. If any documents, pictures, audio, creatives, audio, code, registries, or otherwise any individual has any type of documentation what so ever of NAR Puppies, it is not allowed, and is scheming if used in way, and it is against our data terms of use as well, and we hold a creative copyright on anything that is NAR Puppies that we create. The only person authorized to use files on anything NAR Puppies, is The NAR Puppies Board Of Trustees, which owns 100% of NAR Puppies.

Legal (F) In the event an individual, like a business owner, entity, is sly, manipulative, dishonest, and claims to have unpaid debt, unpaid invoice, or didn't receive the money for a transaction in question from another individual, is not allowed. For example, a business owner, or information could have a good reputation to individuals in their personal network they see and socialize with, their reputation could also known as, and people of the community could see them as "honest, fair, reputable". However, business owners can get powerful over time, with their customers, clients, family and friends, and sometimes even government, and people can view them as celebrity, or as great, super honest, things like this. However, there may be weekly, monthly or a few yearly transactions, a scheme, where they literally take someone's money by false manipulative means. This could be creative invoices and amount dues that never happened, clearing financing invoices like a customer in question and say it was never paid, and much much more. However, these business owners, or individuals running the scheme against their customer in question, can very easily say that a debt was not paid back in part, or in full, and question the

customer, and even start a lawsuit or court case, or put a lean on the customers vehicle, house, or report them to a credit collection agency. This is literally a customers word and reputation, against another citizen that has a superior image, reputation, and may also have a business, with a superior image and reputation, and normally the business owner has an image or more wealth and more power, even if that is not the reality of what is true. All this, can add up to some nasty false dishonest transactions, contracts, or otherwise any situation where a debit or transaction, invoice, contract is made up in part, or in full, in an attempt to scan another individual in question.

If NAR Puppies resumes payment, the normal 120 days foreclosure process is voided, and altered, and such property is to be put back in the full legal custody and control of NAR Puppies, as before the foreclosure process started.

CODY N. SMITH COPYRIGHT

NAR Puppies Mortgage's, Foreclosures, Real-estate (C) If process or event is set into motion, that contains or includes NAR Puppies real-estate, or other assets owned by NAR Puppies, and that variable with the asset in question is listed publicly for sale during that timeframe the variable is in motion to be taken from NAR Puppies, then such actions to take the assets in the variable in question, must be stopped to give NAR Puppies time to privately sale such asset in question, in the the variable in question that has the asset being challenged, that is part of NAR Puppies. What does this mean? For example, if a foreclosure process is started on any variable that contains real-estate, that foreclosure process is considered paused, stopped, and on hold if the NAR Puppies board decides to sale the property, to remedy the foreclosure and/or lien or contract judgement toward such property or variable in question. This gives NAR Puppies plenty of time to list and sale such property privately, in-house, so that NAR Puppies can save it's assets, equity, wealth, in such asset, in such variable in question.

This means if a home or asset in the variable in question, in the event in question is sold for example \$100,000, and it has 70% debt, and it's market value is \$140,000 or more if they sold it at current market fair value price, then the auction company, foreclosure company, party that seized the asset, party that sanction the asset, or otherwise took the ownership of that variable and asset in question, would in this scenario, in this example above, owe The NAR Puppies Board Of Trustees \$70,000 that NAR PUPPIES HAD IN EQUITY IN THAT ASSET, BEFORE THE OWNERSHIP OF THAT PROPERTY WILL BE APPROVED TO BE TAKEN IN ANYWAY, FROM THE NAR PUPPIES BOARD OF TRUSTEES OWNERSHIP.
